Reasons for Allowance

The information regarding the cultivar Sundak was described in the North Dakota Nursery News printed on January 24, 2001 stating that interested party may contact Dr. Herman for the availability of the instant cultivar. The 2002 Annual Highlights Agriculture at North Dakota State University also describes that the instant cultivar may be in public use at research centers and wholesale nurseries. The public use, offer for sale, or on sale in this country more than 1 year would constitute a bar under 35 USC 102(b).

In the remarks dated on November 26, 2004 on pages 2-3, Applicants state that the claimed plant has not been offered for sale, on sale, or in public use in the U.S. more than one year prior to the effective filing date on this instant application.

The specification provides as complete a botanical description as reasonably possible of the claimed plant. The completeness of the description is sufficient to distinguish this new plant from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
